Conference Recordings?

- The *German National Library for science and technology (TIB)* has a long tradition and large collection of conference reports
- But: increasing number of conference that are recorded □ **conference reports + recordings**
- More than half of the hosts and organizers express a **need for action** in setting up virtual platforms that complement the real life event*
- **What do conference organizers need or want?**

* Meeting & EventBarometer 2016,
<https://www.gcb.de/de/newsmeldung/news/moderne-technologien-in-der-veranstaltungsbranche-gefragt.html>

Agenda

1. Motivation

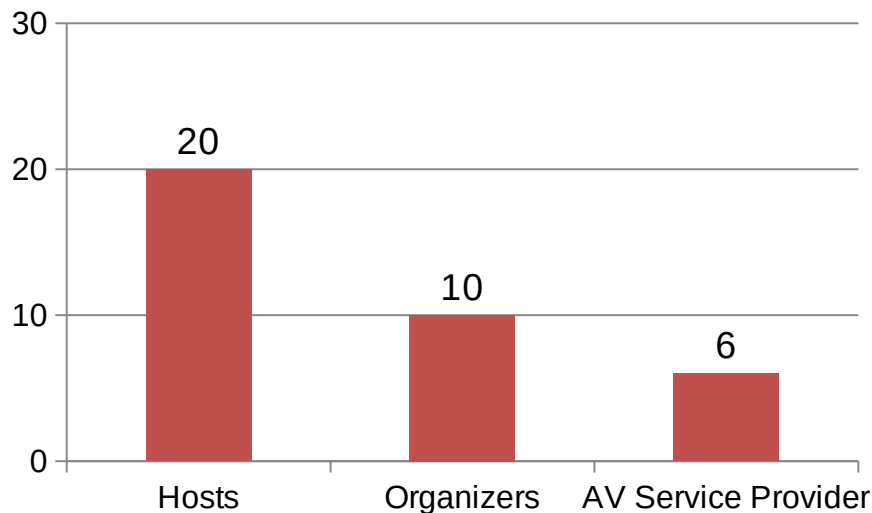

2. Methods

3. Results

4. AV-Portal

Qualitative interviews

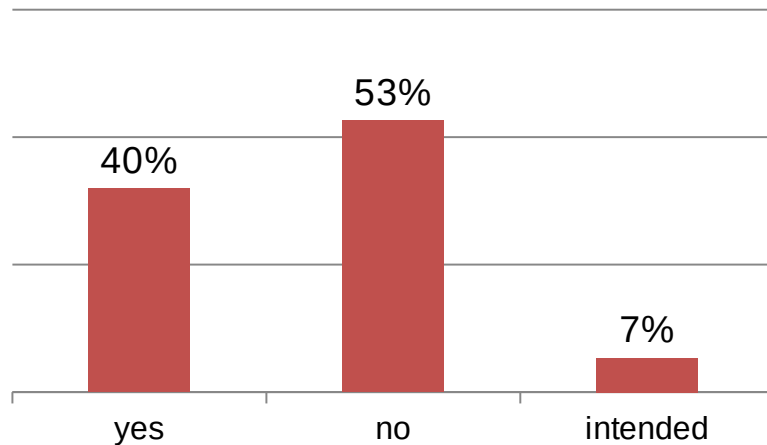

- Analysis of the **needs and demands** of conference hosts, organizers and service providers regarding audiovisual recordings
- **Questionnaire** asking for the
 - status quo in production and publication of conference recordings,
 - problems and requirements
- **Qualitative Interviews** conducted by engage AG, Berlin & Leipzig

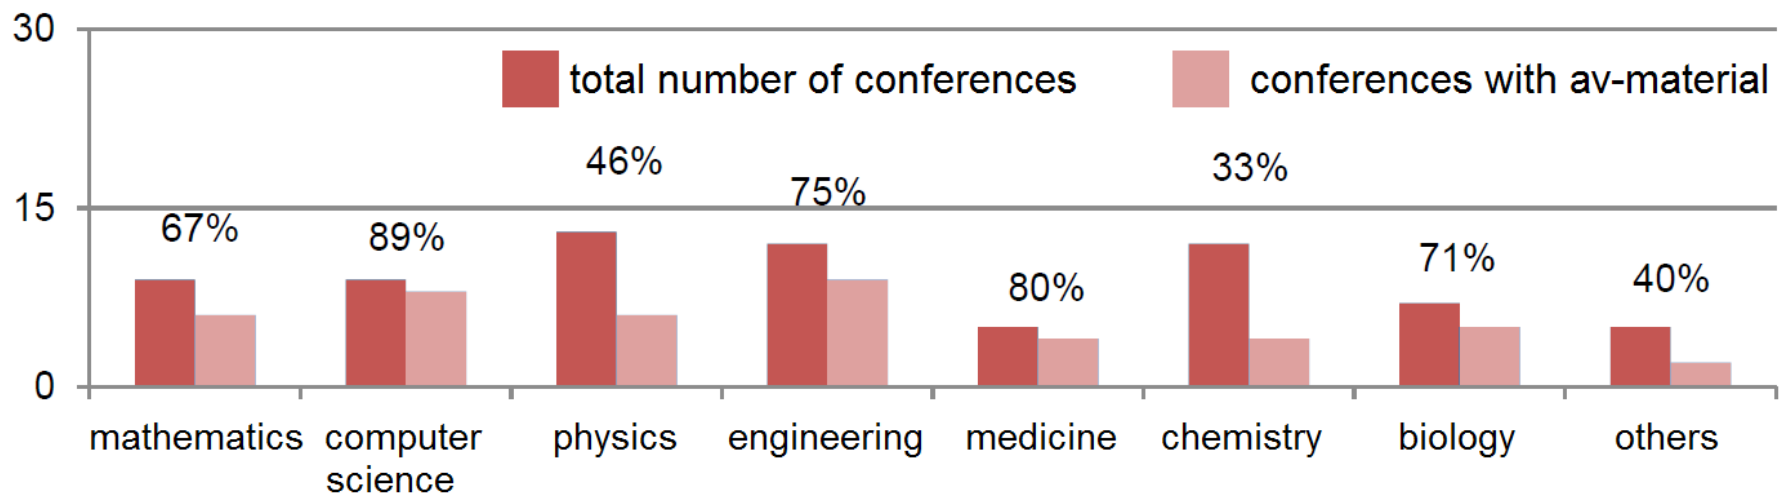

Agenda

1. Motivation
2. Methods
3. Results
4. AV-Portal

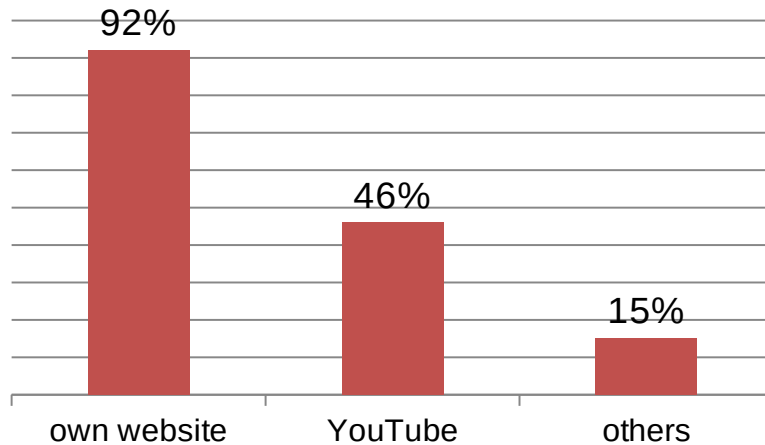

How many conferences are recorded?

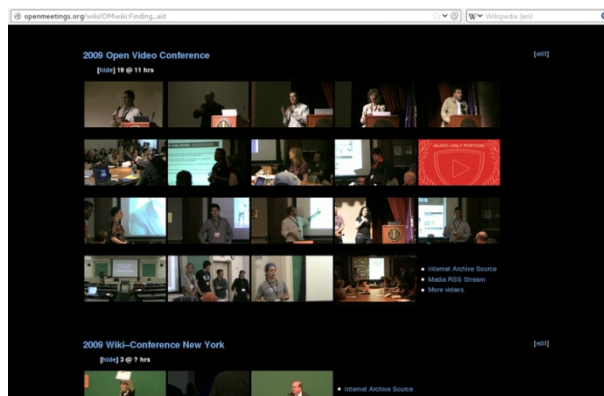

- **Almost half (47%)** of the respondents stated that they **produce** (or intend to produce) **conference recordings**
- results differ largely between subjects
- Ranging from 33% in chemistry to 89% in computer science.

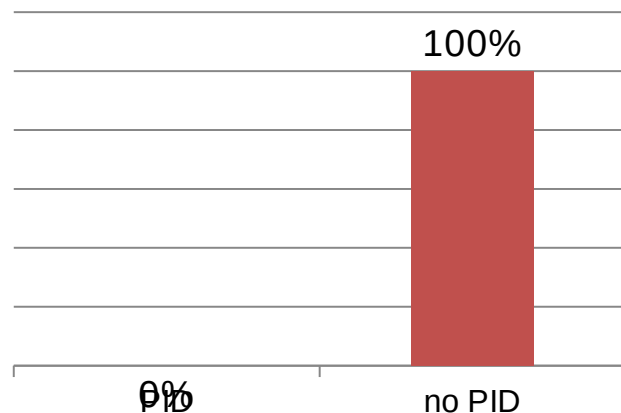

Where do you publish the recordings?

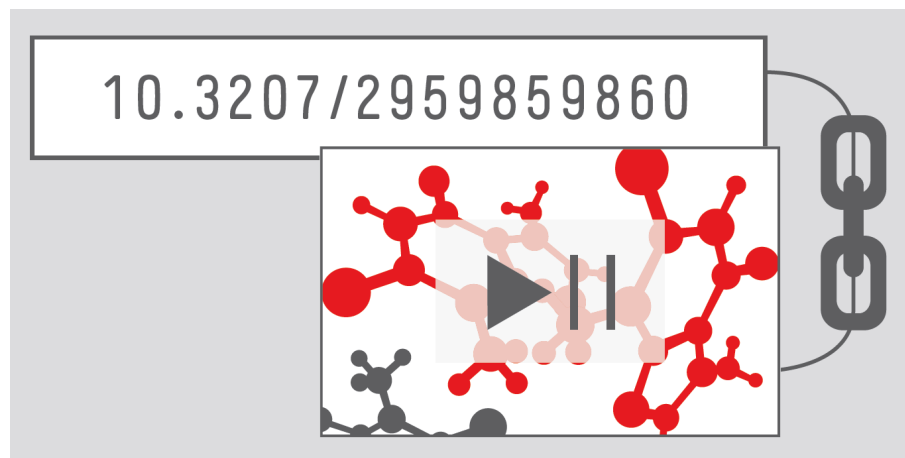

are used for conference recordings!

Do you use persistent identifiers (PID)?

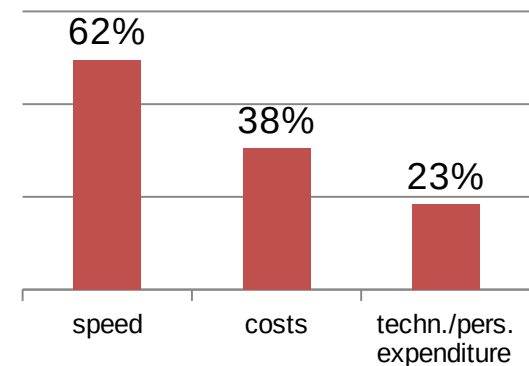

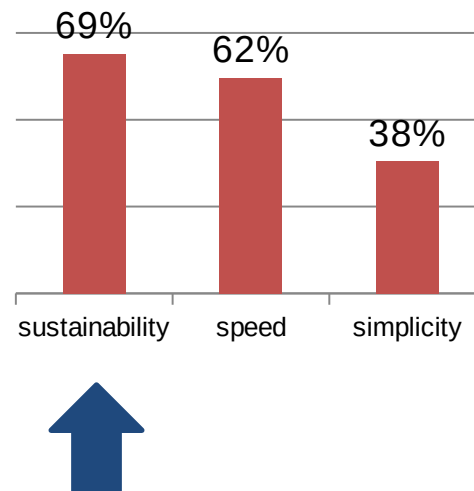

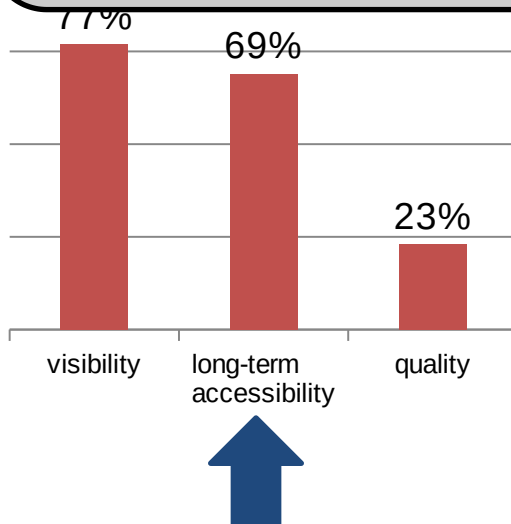

No persistent identifiers
are used for conference recordings!

TOP 3 most important aspects concerning...

69% consider **long-term access & sustainability** important!
but
no persistent identifiers & no sustainable infrastructure used!
