## Operation of JST

# Expenditures in F Y 2006

## No. of Staff in FY 2006

Permanent Staff: 471

Contracted Researchers and Others: about 3,000

## Promoting dissemination of S&T information

JST is the major S&T information dissemination center of Japan

JST activities:

1. To build and maintain bibliographic and factual databases to construct the foundation of S&T activities.
2. To make and disseminate databases of resources on researchers, research institutions and research resources.
3. To aid the digitization and publication of electronic journals of Japanese academic societies.

### Commercial databases

JDream-II: Document retrieval system of academic papers from throughout the world (in Japanese)

### Free-of-charge databases

Factual databases of researchers, research institutes, patents, job information for researchers, etc.

# Promotion de la diffusion de l'information scientifique et technique

Mise en place d'un socle assurant la diffusion des informations relatives aux recherches et développements (littérature scientifique et technologique, chercheurs, organismes de recherche, etc.)

Base de données mise gratuitement à disposition par la JST

## Données bibliographiques

### J-EAST (Gratuit)

Base de données en langue anglaise donnant des informations bibliographiques sur la littérature et les articles scientifiques et technologiques publiés au Japon, ainsi que leurs résumés.

<http://j-east.tokyo.jst.go.jp/>

### J-STAGE (Partiellement gratuit)

Publication des journaux électroniques édités par les Sociétés savantes japonaises (Japanese Academic Societies). Chacun peut y trouver et consulter les textes intégraux des thèses publiées.

<http://www.jstage.jst.go.jp/browse/>

## Brevets et informations technologiques

### J-STORE (Gratuit)

Base de donnée gratuite présentant des « graines innovantes » et des informations sur les brevets disponibles, pouvant être l'objet de licences, déposés par les universités, les organismes publics de recherche, la JST ou autres organismes, y compris les brevets non encore publiés.

<http://jstore.jst.go.jp/EN/>

## Recherche

### ReaD (Gratuit)

Informations gratuites, essentiellement centrées sur les organismes japonais de recherche, les chercheurs, les sujets de recherche et les ressources de recherche.

<http://read.jst.go.jp/EN/>

## Chercheurs, offres d'emploi

### JREC-IN (Gratuit)

Site gratuit proposant, au Japon, des offres d'emploi et des demandes de postes dans les secteurs de la recherche.

[http://jrecin.jst.go.jp/index\\_e.html](http://jrecin.jst.go.jp/index_e.html)

## Secteur de la bio-informatique

### BIRD (Gratuit)

Base de donnée présentant les aides et les résultats des recherches de l'Institut pour la recherche et le développement de la bio-informatique (*Institute for Bioinformatics Research and Development*).

[http://www-bird.jst.go.jp/index\\_e.html](http://www-bird.jst.go.jp/index_e.html)

## Programme de développement d'une base de données sur la Recherche (Gratuit) (Database Development Program)

Développement et mise à disposition gratuite d'une base de données partagée par la JST et les organismes de recherche, pour la promotion de la circulation des données de recherches et d'expérimentations détenues ou collectées par les organismes de recherche pour le partage du patrimoine intellectuel dans les domaines des sciences de la vie et du vivant, des substances et matériaux, de l'environnement, de la sécurité et catastrophes naturelles.
